

The BCC continuously strives to meet with our members and evaluate their applications in a timely manner. It is our mission to approve those plans when they fall within the guidelines of our bylaws, deed restrictions, and township regulations. When they do not, we commonly suggest alternate ideas or modifications in order to have them comply with those restrictions.

We believe that by complying with our guidelines we will preserve the beauty and aesthetics of our community. This in turn may keep our neighbors friendly and help maintain higher property values. Should anyone have any questions or concerns we're readily available to assist you.

The BCC hopes everyone will have a fun filled summer and wishes you a safe and responsible boating season.
